PRO LINE WELDING, LLC

DBA PROLINE

CAPABILITY STATEMENT

FEDERAL · STATE · MUNICIPAL · COMMERCIAL

COMPANY OVERVIEW

ProLine is a welding and fabrication company founded by a welder who spent years traveling the country on high-pressure pipe, where every weld is inspected. That same standard is applied at the shop in Willis, Texas, and on field jobs nationwide. ProLine strives to land federal, state, municipal, and commercial work.

CORE COMPETENCIES

- **Pipe welding:** Everything from custom pipe entrances and pipe fencing to industrial-grade, high-pressure pipe welding held to inspection standards, at the shop or in the field.
- **Custom fabrication:** One-off and repeat builds from raw steel to finished product, including dozer rakes, equipment attachments, brackets, and parts.
- **Structural steel and supports:** Fabrication and installation of bracing, supports, and structural framing, including storage tank supports.
- **Metal buildings and carports:** Barns, shops, and carports, built and installed on site.
- **Heavy equipment repair:** Field and shop repair of buckets, frames, attachments, and wear parts.
- **Cutting and demolition:** Plasma, oxy-fuel, and carbon arc cutting and gouging for removal, demolition, and decommissioning work.
- **Diverse metals:** Carbon steel, stainless, aluminum, galvanized, chromoly and alloy steels, and cast iron repair, plus whatever steel work the job calls for.

SELECTED PROJECTS

- **Lone Star Land & Ranch Improvements**, Kurten, TX: fabricated multiple heavy-duty dozer rakes for land-clearing operations.
- **Veritas Ventures**, multiple states: custom-fabricated bracing and structural supports for oil storage tanks.
- `(Owner experience)` Greif plant decommissioning, La Porte, TX: led the cutting and welding during a full plant decommission with Eco Shield Texas.

DIFFERENTIATORS

HIGH-PRESSURE PIPE STANDARD

Years of welding high-pressure pipe across the country, where every weld is inspected. That same standard goes into every job.

SHOP OR FIELD

Fully equipped mobile welding rigs and a shop in Willis, TX, so we can work wherever the job is.

AROUND-THE-CLOCK AVAILABILITY

Hours set by project needs, with around-the-clock availability when the work is urgent.
